BMS as a Service

Make your Buildings

More controllable

More manageable

More efficient

Businesses all over the world are looking to optimize their facilities – a non-core yet essential function of every business. With the constant march of technology, getting left behind competition is a real worry.

hredai offers Building Management Solution as a Service (BMSaaS) – a new and innovative way to help you manage your entire building from one single interface. Make your building energy efficient and easy to manage – with no upfront capital costs.

BMSaaS allows you to rent the hardware and software on a fixed charge basis. **hredai** will keep the systems running efficiently. With our BMSaaS, shift your upfront cost into predictable operational expenditures.

We work closely with you to engineer a custom solution – ensuring every last detail is attended to.

No more worries about
- ☑ Licensing
- ☑ Scalability
- ☑ Hardware Maintenance
- ☑ Warranties
- ☑ Software Updates
- ☑ Security Updates
- ☑ System Failures
- ☑ and more....

What is BMS?

A combination of sensors, controllers and software that lets you controls and monitors the building's mechanical and electrical equipment such as ventilation, lighting, power systems, fire systems, and security systems – all from a single interface.
